

Sage 300 2016**Be more efficient and compliant.**

Connect your entire business - Sage 300 is integrated with the latest versions of Sage Payroll (7.2), Sage Intelligence Reporting (7.6), and Sage CRM (7.3), allowing you to improve effectiveness and make better decisions across your business.

Save time posting new records - Post invoices, receipts, adjustments, refunds, and more directly from the entry screens for GL, AP, AR, and Bank Reconciliation instead of having to run an entire batch.

Improved Tax Tracking reports - When printing the Tax Tracking report by fiscal period, you can now specify a range of fiscal year/periods to include on the report.

Save time when designing reports - Automatically detect missing accounts from reports, exclude zero rows, and set dynamic ranges that detect any changes to the General Ledger.

Sage 300 2017**Improve usability, streamline workflow and increase business transparency.**

Optimize your workflow - Batch credit card processing is now available, improving efficiency and minimizing errors. You also have the ability to set up regular reminders in the scheduler.

Benefit from smarter transaction processing - Quick preauthorize and quick charge have been added to Sage Payment Solutions, allowing you to process payments faster with just one click of the mouse.

Increase business visibility (Sage 300cloud) - Create and share notes related to customer, vendor, or inventory item, which will be displayed when creating any transaction associated with them. Notes is an intuitive new way of keeping track of your most important, or your most problematic issues, ensuring business transparency across the organization.

Simplify inventory management (Sage 300cloud) - Sage Inventory Advisor Basics provides the ability to quickly create optimal purchase recommendations, helping you easily identify what to buy and when, based on accurately generated forecasts. Improved visibility and smarter purchasing means stock-outs are minimized and excess stock is reduced.

Customize your web experience (Sage 300cloud) - Further enhancements to the web screens improve the usability and accessibility of Sage 300cloud.

Sage 300 2018**Further improved usability and key process automation.**

Improved user experience - A completely redesigned desktop interface improves usability and streamlines workflow.

Accounts Payable Automation (Sage 300cloud) - Automate the entire AP process, from purchase to payment. Invoices are entered with guaranteed accuracy and stored securely in the cloud, saving time and removing the complexity from manual data entry.

Intelligent reporting (Sage 300cloud) - Sage Intelligence Reporting Cloud now features custom folders and additional report parameters, further enhancing business visibility.

Sage 300 2019**Modernization and seamless integration for Sales, Marketing and Customer Service.**

Improved and modernized technical architecture - Several older technologies within the Sage 300 architecture have been retired and replaced, improving performance, scalability and security.

Streamline Sales and Marketing activities - An entirely new integration with Sage CRM allows Sage 300 customers to gain better business insight, increase team productivity and unlock the secret of customer success.

Fully integrated eCommerce - Seamlessly extend Sage 300 to the digital world and transform the way you do business online.

Improve company-wide business visibility - New Global Search utility allows customers to quickly search across all records and transactions, and drill down into results.
