

SMALL PARCEL AND LTL SHIPPING

Integrated Multi-Carrier Shipping System

FEATURES

- Automate From Order Entry Through Delivery
- Powerful Carrier Rating Server
- Extensive Carrier Compliance
- Intuitive User Experience

AUTOMATE FROM ORDER ENTRY THROUGH DELIVERY

Achieving a streamlined business process from order entry through delivery is becoming more challenging by the day: rules and regulations from the major carriers (FedEx, UPS, USPS) are in a constant state of flux, LTL rates are all over the map and customer expectations continue to expand in today's fast-paced global business climate. You can use the carriers' systems, but that puts your personnel squarely in charge of determining the lowest cost means of delivery.

Our solution is a multi-carrier shipping system designed flexibly to fit anywhere in your organization:

- Integrated into an automated, high volume warehouse environment
- Standalone within your mailroom
- Running from your user's desktops – either standalone or integrated with your ERP

The system was built using the latest in Microsoft .NET and Silverlight technology, designed for scalability, and tuned for maximum performance in high volume applications. HighJump Ship allows you to maximize cost savings by leveraging carrier selection with the multi-carrier rating engine.

Our solution helps you reduce your shipping costs, improve your shipment reliability, track every shipment, and maintain valuable key performance metrics. You can improve your customer service while driving out operational costs.

POWERFUL CARRIER RATING SERVER

At the heart of any multi-carrier shipping system is the rating server. Our shipping solution is no exception. Our server is designed for high volume, reliable shipping, and comprehensive carrier compliance – with the flexibility to scale from a single workstation to an enterprise level solution with multiple servers, load balancing and high availability to meet even the most advanced requirements.

EXTENSIVE CARRIER COMPLIANCE

Our solution is certified by all the major parcel carriers. It has passed the USPS MAC certification and is a registered Confirmation Services and Express Mail Manifesting Vendor application. It provides a UPS Ready solution for worldwide parcel shipping as well as UPS Freight and UPS Mail Innovations extensions.

And, our solution doesn't stop there! It is a FedEx Compatible Solution, supporting worldwide shipping of FedEx services, including FedEx Freight and FedEx SmartPost. Plus DHL, Canadian carriers, LTL and Regional carriers like Spee-Dee!

INTUITIVE USER EXPERIENCE

It's not enough to be robust – you have to be easy to use. The innovative user interface is delivered in a browser, but acts like a familiar Microsoft Office solution that you use every day. From a simple means to rate shop and ship to end of day close and paperwork creation, our framework makes it easy to train your team to take advantage of your shipping solution.

CALL US TODAY FOR MORE DETAILS

Our solution can help you lower your costs, improve your customer service, meet global shipping requirements, and drive operational efficiencies in your business. Isn't it time to start?

ABOUT HIGHJUMP

In almost every industry, buyers are becoming more fickle, and more demanding. For logistics executives, effectively meeting buyer needs has become a relentless quest for speed and agility. Traditional supply chain solutions – siloed, complex and hard-to-implement – no longer suffice, as competitors find ways to deliver goods faster and more profitably.

In this "now" economy, HighJump helps you stay agile, with adaptable, connected solutions that harness the power of your trading partner community. From the warehouse to the storefront, from the desktop to the driver's cab, we can help you achieve new levels of supply chain responsiveness, performance and profitability.

HighJump's suite of warehouse management, business integration, transportation management, and retail/DSD solutions form a complete, powerful and adaptable platform that allow you to drive growth, customer satisfaction and revenue. **HighJump: supply chain accelerated.**
